

Area Store

One of the most renowned decoration and furniture brands, Area Store is famous for its carefully planned, elegant and inspiring environments. Sometimes more refined, and other times more informal, its pieces are invariably of good taste and its collections reflect the brand's whole philosophy.

Area creates sophisticated spaces to display its products, where every detail is planned with rigor and attention. The brand has four stores in Portugal - Amoreiras, Colombo, Norte Shopping and Cascais - and for all of these it counted on Engexpor to carry out the project and construction management of the spaces' original layout, undertaken by the Habitat brand, a British company that adopted the Area brand in Portugal from 2005.
