

Banco Comercial e de Investimentos (BCI)

BCI is a bank that forms part of the Caixa Geral de Depósitos and the BPI group in Mozambique. It has become an entity with Mozambican culture that aims to actively aid the country's economic and social development and be a reference for the financial system in Sub-Saharan Africa.

Its headquarters, located in downtown Maputo, is a symbol of modern architecture in the Mozambican capital. We were entrusted with the project and works management, and our involvement soon expanded to encompass its network of branches, which we help to grow throughout the country.
