

Comporta Retreat

Exclusive natural retreat next to Lisbon

Comporta Retreat will be built on a private land property of more than 12 hectares located in one of Portugal's most charming tourist regions. It is composed of 28 lots with areas between 2,000 and 5,500 m², surrounded by pine trees and unique views of rice plantations and the sea.

Single-story houses composed of different volumes linked by wooden bridges will receive a housekeeping/cleaning service, garden maintenance, *concierge* service, access to the spa, swimming pool, gym and restaurant, thanks to a partnership with Quinta da Comporta Hotel.

Management of the infrastructure works of this tourist and real estate venture will be performed by Engexpor, an area in which we hold vast and diversified experience.
