

Espaço Guimarães

In the city center, breathing life into Guimarães residents

The Espaço Guimarães Shopping Center is a modern, state-of-the-art facility, featuring two supplementary formats: a shopping and a retail park, which allow visitors to access a wide range of activities on the same premises, in the center of Portugal's "birthplace city".

This dynamic, vibrant place has established itself as a benchmark for Guimarães residents by providing an extensive range of cultural, entertainment and leisure activities, combined with the selection of some of the best-known Portuguese and international brands.

The Espaço Guimarães received support from Engexpor in the project and works management phase, alongside the storeowners' committee.
