

Estoril Sol Residence

Modern and luxurious condominium facing the bay of Cascais

A luxury residential development exhibits bold architecture and an “irregular” structure that stands out in the urban landscape of the Estoril waterfront.

Designed by Architecture Gonalo Byrne, the building is composed of 3 blocks with 14 floors for habitation and 4 underground floors dedicated to parking. The foundations are supported by concrete reinforced with metallic elements and faades coated with double-glazing.

Together high-quality finishes and stunning sea views, key features include flower and tree gardens, a swimming pool, a *health club* and a tunnel for private access to the promenade and beaches.
