

Four Views Baía

Sustainability is the hallmark of the award-winning hotel operator

Built in an idyllic spot in the Funchal Bay and surrounded by green mountains, the Four Views Baía is a modern hotel that has become a benchmark in Madeira. The 9-floor construction with a glass façade has 231 rooms and 30 apartments offering state-of-the-art, modern and advanced technological facilities. The hotel also offers parking, two meeting rooms, two bars and a restaurant, gym, swimming pool and spa.

Sustainability is another strong point, the result of reducing the environmental impact of its activity and the structure's efficiency, which incorporated technological and construction solutions to make the edifice more sustainable.

Therefore, the Four Views Baía was awarded the ISO 14001 certification and the Green Key certificate. Among the many recognitions the hotel has received, there is the Trip Advisor Greenleader platinum status, and the Travelife Excellence in Sustainability certificate.

To manage the project and hotel construction, the first Four Views project of its kind, Engexpor was chosen, guaranteeing that the goals established by the customer were attained.
