

Jardim da Glória

A development that restores 5 buildings in a traditional Lisbon neighborhood

Jardim da Glória is one of the most recent contributions to urban renewal in Lisbon's historic areas. Located in Graça, it will renovate 5 buildings that house 40 apartments and a villa, where modernity recaptures the charm of this neighborhood's typical traditions, built on the city's highest hilltop.

With its project signed off by the ARX architecture firm, the development is a haven of exclusivity surrounded by the green of its ample garden, which contains a swimming pool, lounge area and kids park, in an appeal to the serenity of a quiet life in the city center.

For this venture, Stone Capital put its trust once more in Engexpor, which carried out the project management.
