

Liberdade 40

Cosmopolitan discretion with details of exceptionalism

The deep renovation of Liberdade 40, a building from the 1980s in the middle of Avenida da Liberdade, gave birth to 16 exclusive apartments in a modern and minimalist style, where contemporary lines and distinctive details stand out.

The balconies and huge windows that open on the unique luminosity of Lisbon, the views that are reached from the upper floors to the Avenue, the Eduardo VII Park and the hills, the functionality of the spaces and the details that give this building a remarkable and cosmopolitan. Your ex-libris is a T3 with a terrace of 40 square meters where you can see the Tagus and the city.
