

Pine Cliffs Gardens

Exclusive apartments surrounded by greenery

Located at the entrance of the resort, surrounded by gardens and a majestic pine forest, Pine Cliffs Gardens is composed of 4 buildings that house 87 luxury 1-, 2- and 3-bedroom apartments, with access to all the resort's services and restaurants.

The combination of the contemporary and the traditional gives rise to an Algarve-inspired aesthetic in one of the most ambitious parts of the Pine Cliffs Resort.

We carried out the project and construction management for this new venture and, in the context of the development, also undertook the infrastructure, landscaping and road system works.
