

United Health Group Hospitals

Works modernise and expand three hospitals of the largest private health group in Brazil

We are strengthening and consolidating our performance in the Brazilian health market, with the management of works in three hospital units of the United Health Group, the largest private health group in Brazil.

The operation includes the renovation and expansion of the Metropolitano Lapa, Alvorada and Caieiras hospitals, where civil works will be carried out, in addition to the modernization of electrical installations and control systems.

Based in the United States, with headquarters in the state of Minnesota, the United Health Group is one of the largest references in the private health sector worldwide, present in 130 countries.
