

Integrated Quality Policy

Engexpor is a company specialized in Project Management and Construction Management, providing services to real estate developers and investors in the development of their projects, from the consulting phase to final delivery of the works.

Since its establishment in 1984, **Engexpor's** main strategic objectives have been: to sustainably grow in the countries where it operates, to promote its internationalization process, to develop and implement working methodologies aligned with social and environmental practices in order to strengthen the trust of our Clients, Employees and Suppliers.

The fulfillment of our goals is fundamental for our business sustainability and we are totally committed to:

- : Participate in projects of complexity and/or size that reinforces the experience of the company and our employees;
- : Provide a higher level of professional services to meet the needs and expectations of our Clients;
- : To propose to our Clients good environmental practices in the development of their projects.

Engexpor is also dedicated to promoting the following actions:

- : Eliminate and/or minimize hazards and risks in order to create the ideal working conditions to prevent accidents;
- : Develop environmental protection and pollution prevention measures;
- : Continue to promote the training of our employees in order to build a proficient and skilled technical team;
- : Comply with regulatory requirements (ISO 9001, ISO 14001, ISO 45001), legal requirements and others applicable to the organization;
- : Promote worker consultation, involving teams in the continuous improvement of the Integrated Management System and its performance.

At **Engexpor** we continuously seek to improve, putting into practice the values that inspire our actions – Client Focus, the Excellence that determines our activity, the Integrity with which we operate and relate to others and the commitment we make, in each project, regarding quality, environment and safety, which are differentiating fundamentals that define us as an organization and represent who we are, what we do and how we do it.
